Career Objective

Looking for growth oriented opportunities in coding and software development where I can apply my technical skills, enhance my expertise.

Education

| | |
|---|---------------------|
| Kakinada Institute of Engineering and Technology for women , B.Tech in Artificial Intelligence | Nov 2021 – Apr 2025 |
| • CGPA: 7.77 | |
| Veda Junior College , Intermediate | Jun 2019 – Apr 2021 |
| • CGPA: 8.85 | |
| Vivekananda E.M. School , SSC | Jun 2018 – Mar 2019 |
| • CGPA: 9.7 | |

Technical Skills

Languages: Python, HTML, CSS, SQL

Technologies: Scikit-learn, Keras, Tensorflow

Experience

| | |
|--|---------------------|
| Foundation of Modern Machine Learning , provided by IIITH | Dec 2022 – Jan 2023 |
| • Learned Machine Learning Algorithms and Libraries | |
| • Completed a course on machine learning, gaining strong knowledge to solve real-world problems. Applied concepts through practical assignments and projects and actively engaging in lectures and discussions | |

Projects

Movie Recommendation System

- Developed a project movie recommendation system that uses content-based filtering and cosine similarity to suggest movies based on user preferences
- Technologies Used : Python, ML, HTML, CSS

Text Classification Using Bag Of Words

- Developed a Fake News Detection system using the Bag of Words model and machine learning to classify news articles as real or fake. The model preprocesses text data and trains a classifier to identify misinformation effectively.
- Technologies Used : HTML, CSS, Python, NLP, ML

Certificates

- Intro & Advanced Python Certification by Edyst Platform
- Machine Learning with go Certification by Infosys Springboard

Achievements

- Winner in Hackathon Organized at KIET College
- Best Leader Ship Award
